

COLOURS FOR ELASTOMERS

The chart illustrates the series of colours specially formulated by REPI for elastomeric polyurethanes. These colours can be used in mass colouration or metered directly into the mixing head. The panels simulate tone and intensity of colour at an LDR of 1%. Colour tones may undergo variations depending on the elastomeric system used.

YOGURTH WHITE
RAL 9010

CERVINO WHITE
RAL 9003

HONEY YELLOW
RAL 1023
