

CREATE YOUR COLOUR FOR FLEXIBLE FOAMS

From a few basic colours to a wide variety of shades. Combine REPI Basics in different proportions to get your favourite shade and intensity.

This chart should be considered as a guide for exploring, selecting and creating your perfect shade for PU slabstock foams colouration.

Colour shades can vary depending on the type of formulation and the PU foam density.

The colour is added in pphp (parts per hundred polyol) to conventional ether-based foams, density 30 kg/m³.

SULFUR
